

Paragon Micro Inc. – Awarded Air Force’s 2GIT Contract

For Immediate Release

Lake Zurich, Illinois — November 11th, 2019 —Paragon Micro Inc., is pleased to announce that it has been awarded a 5-year, \$5 billion 2nd Generation Information Technology blanket purchase agreement (2GIT BPA) that will provide for the efficient purchase of complex IT solutions and ancillary services to the US Air Force, including data center infrastructure, client devices, network hardware and communication equipment. The 2GIT BPAs will replace the USAF NETCENTS-2 IT Products IDIQ contract which expired on November 5, 2019.

“Paragon Micro has played a strategic role in providing Federal Government agencies with products, software, and services to support their missions since 2011 and we’re honored to continue our role as a critical vendor supporting the Air Force’s biggest IT needs” said Joe Yamour, Paragon Micro’s Public Sector Director. “This latest award underscores GSA and the US Air Force’s confidence in our company as a long-term trusted partner, we’re very proud of this achievement.”

“The 2GIT program is a great example of how GSA is developing IT solutions that help the federal government meet its mission-critical needs,” GSA Assistant Commissioner of IT Category Bill Zielinski said in a release announcing the awards. “2GIT also demonstrates GSA’s commitment to working in true partnership with our customer agencies to help them navigate complex acquisition and IT modernization challenges with solutions that will evolve to deliver on government’s current and future needs.”

“Government agencies are increasingly tasked with business objectives that require the experience of a vendor like Paragon Micro. My confidence in our ability to help the Air Force achieve competitive solutions for data center infrastructure, devices, network hardware, and emerging IT tools and capabilities grows each day – we are well positioned to help them meet their desired IT outcomes over the next five years” said Jeff Reimer, president & CEO, Paragon Micro.
